

ROBERT J. & NANCY D. CARNEY
INSTITUTE FOR BRAIN SCIENCE
BROWN UNIVERSITY

Virtual Mini-Symposium
**Chromatin and Transcriptional
Mechanisms in
Human Stem Cell Models of
Neurodevelopmental Disease**

June 10th, 2021 | 1-3PM
via Zoom

Organized by the
**Center for Translational
Neuroscience**

Program	
Luis De la Torre-Ubieta, Ph.D. University of California, Los Angeles	<i>Gene regulation in cortical development and neuropsychiatric disease</i>
Stormy Chamberlain, Ph.D. UConn Health	<i>Mechanisms of repression and therapeutic approaches for Angelman syndrome</i>
Sofia Lizarraga, Ph.D. University of South Carolina	<i>Counteracting epigenetic mechanisms in autism spectrum disorders</i>
Genevieve Konopka, Ph.D. University of Texas Southwestern Medical Center	<i>Cell-type specific transcriptional networks related to autism</i>

Host: Eric M. Morrow, M.D., Ph.D.
